Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Brown et al (GB patent 1,569,374).

The patent to Brown discloses the invention as is claimed. Brown discloses a monolithic connector (figs.1,2) for coupling a wiper blade (not shown) to a wiper arm (33). The connector is comprised of a base member (2), adapted to be attached to a wiper blade, coupled to a locking member (4) via a flexible connecting member (6). The base member and locking member cooperate together to hold the pin (15). The base and locking member are configured to fit into a hook portion (46) of arm (33). The base member (2) includes an arcuate recess receiving portion (not numbered but shown in figure 2) for receiving a pin (15). The base member also includes a joint portion (26) adapted to be rotatably mounted to the pin (15). The locking member (4) includes part-circular recesses (not numbered but shown in figures 1, 2 and 4) lying on each side of a rib (26). Each of the base and locking members includes side plates (34). Such part-circular recesses are adapted to hold the pin (15) in the recess of the base member, at least as far as defined.

With respect to claims 1-8, note that only the connector is being claimed. Therefore, any particular relationship with a particular arm or blade does not appear at issue and does not appear to distinguish from Brown. As set forth above, Brown discloses all the structure set forth in the claims.

With respect to claim 6, note portion (14) on the locking member (4) designed to fit into portion (10) of the base member (2) during movement of the locking member towards the base member.

With respect to claim 9, note that Brown does disclose a wiper blade (not shown) coupled to the arm (33) by the connector.

Response to Arguments

Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection. As set forth above, Brown discloses a connector, including recesses, as is claimed.

Allowable Subject Matter

Claims 10-12 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
